

## Advanz™ MC5

### Fast, precise cutting and an excellent surface finish!

The Advanz™ MC5 utilizes a multiple chip grind with a high/low tooth sequence. The chip load is spread out over more teeth to facilitate longer life.

### Exclusive Starrett Tooth Geometry

- Carbide tipped
- Ground tooth produces 5 chips
- High/low grind sequence
- Positive rake angle
- Sub micron carbide (HV1600)

### Advantages

- Cutting non-ferrous metals and castings
- Higher productivity through reduced cutting time
- Precision cuts - superb surface finish
- Excellent "cost per cut" for production cutting
- Starrett exclusive edge preparation - minimizes micro chipping

### Applications

- Low alloy tooth steels
- Hot and cold rolled machine steels
- Automotive aluminium casting blocks
- Cast Iron
- Brass
- Bronze
- Copper

Starrett MC5  
Five Multiple Chips

| Width x Thickness |             | TPI     | Material Number |
|-------------------|-------------|---------|-----------------|
| Inch              | mm          |         |                 |
| 1-1/4" x .042"    | 34 x 1.10mm | 2-3/P   | 92572           |
| 1-1/2" x .050"    | 41 x 1.30mm | 1.4-2/P | 92574           |
|                   |             | 2-3/P   | 92586           |
| 2" x .063"        | 54 x 1.60mm | 1.4-2/P | 92577           |
|                   |             | 2-3/P   | 92580           |

P = Positive rake  
Supplied as welded bands only
